WORK EXPERIENCE

Full Stack Developer   May 2022 – April 2023

Medical Claim Center, Roselle, IL

- Provided remote training and support to 10 newly hired individuals, enabling them to effectively lead and debug code across various ongoing projects.
- Utilized Django and PostgreSQL to create a tailored solution for a CRM system requirement, enhancing its functionality and efficiency.
- Engineered the MVP for a mobile app in compliance with the company's specifications using React Native and Firebase; delivered the MVP 3 weeks ahead of schedule and reduced development costs by 15%
- Coordinated the development of core server products in Django MTV and SOA service components, ensuring compatibility with major browsers on both mobile and desktop platforms across more than 50 client sites.
- Significantly improved performance by addressing over 80 critical bugs in the company's products, resulting in enhanced overall performance and user experience.

Full Stack Developer   March 2021 – April 2022

Eduwin MIS Private Limited, Ahmedabad, IN

- Established a fruitful collaboration with the enterprise's procurement contract management system, service level agreements, policies, and procedures, resulting in remarkable annual cost savings of over 30%.
- By implementing a value-stream mapping strategy, we analyzed the project delivery process and pinpointed bottlenecks, resulting in an 80% decrease in help desk tickets and a yearly profit recovery of at least 35%.
- Served as a dedicated point of contact for College C-Level Employees, ensuring seamless delivery of software functions and fostering a smooth customer experience.

Web Developer   January 2019 – February 2021

Skara Technologies Limited, Ahmedabad, IN

- Created a cutting-edge administration panel for a purchasing agent business, resulting in a remarkable 90% enhancement in customer service and a substantial 25% improvement in operational efficiency.
- Through the utilization of PHP and MySQL databases, successfully transformed trucking operations, optimizing order management and achieving an impressive 85% increase in customer satisfaction.
- Led a team of 15 web developers to create 21 distinct e-commerce websites and applications, handling all stages from design to ongoing maintenance.

WordPress Developer   April 2018 – December 2018

Printwala LLP, Ahmedabad, IN

- Led the remote development of 15 WordPress websites, overseeing the entire creation process.
- Enhanced existing websites by implementing improvements and introducing new features to enhance their functionality.
- Developed mobile-friendly versions of websites, as well as customized themes and plugins, ensuring optimal performance across different devices.
- Conducted meetings with clients to understand project requirements and goals, fostering effective communication and collaboration throughout the development process.
